May the Stars Guide You

on your Way

Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

\*\*\*\*\*

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

## **Chapter 1: The Ascendant**

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

### *Cancer Rising:*

There is a distinct part of your outer personality that expresses itself very much like a Cancer. You are emotional, personable and intuitive.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Cancer--your personal security foundation--will be integrated into almost every area of life in some way.

The Moon is your chart ruler. To discover even more about what's a priority for you, and also the first impression you make on others, read everything in the chapter on the Moon.

### *Uranus in soft aspect to Asc.:*

You're a character. At least that's the first impression other people get. Even within the confines of a group, you stand out as unique in some way. When all is said and done, your will is the last word. You have an unpredictable streak in you and other people find you exciting because they never know for sure what you'll do or say next.

### *Neptune in soft aspect to Asc.:*

You have an instinctive talent for sensing what others expect from you and then giving it to them. However, it's easy for the real you to get lost in the process. Other people detect this on unspoken levels, and wonder why they have a difficult time figuring out who you really are. Perhaps you don't want them to figure you out, or maybe you wish someone would, and then tell you!

Your outlook on life is utopian and romanticized. Some kind of artistic ability may be present, but you'll have to motivate yourself in order to make your visions into reality.

You're a dreamer who only wants to see the best in others. The truth is, you can perceive the highest potential in others even if they don't live up to it.

## **Chapter 2: The Sun**

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find

ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

### *Sun in Scorpio:*

You are deep and emotionally complex. Most Scorpios approach life with tremendous intensity of purpose. You carry an aura of mystery around you that intrigues other people, whether you are aware of it or not.

This is a sign that has a reputation for being highly sexual. It's not that Scorpios are necessarily interested in sex any more than the other signs; it's just that you radiate such intensity of purpose with a strong magnetic appeal.

You possess a natural "psychic" ability which allows you to receive intuitive information about your environment and the people you meet. This often manifests as an instant like or dislike of someone.

Giving up on an issue that is important to you is a last resort, as Scorpio tends to hang on until the bitter end. In fact, you never really give up inside. You will always carry a bit of this unfinished business around with you and given another opportunity you will try to bring it to the close that you desire. Forgive and forget? Well, you may eventually forgive a perceived wrong as the higher purpose of Scorpio energy is healing, however, you will probably never really forget it.

You are loyal, sometimes even obsessed and you like to be in control. These are fine traits to have when it applies to reaching certain goals, but beware the temptation to use this energy to undermine the efforts of those around you.

You are someone who has the ability to hit the pits and return renewed and ready for another go around. Transformation and rejuvenation are key words that describe the primary principle of your Scorpio energy.

### *Sun in 4th house:*

Personal fulfillment is reinforced by establishing a secure foundation for yourself, whether emotionally or even materially.

Anything related to real estate or property matters is emphasized with this placement of the Sun.

A parent may have played an exceptionally strong role in your upbringing, or somehow exerted a powerful influence on you.

There is a side to you that is very emotional, sensitive and warm. You're naturally self protective and this extends also to those you care deeply about.

### *Mars in soft aspect to Sun:*

Here is the opportunity to draw on willpower backed by action when the need arises. Vitality and physical energy are promoted in a positive manner and your endurance is high when you're motivated. You know how to compete for your own survival, but you generally don't go out of your way to challenge others unless you feel it's really necessary.

### *Jupiter in soft aspect to Sun:*

Jupiter, the planet of mercy, confers an optimistic approach whenever there are life challenges to be met. This aspect is fortunate because it promotes successful outcomes in general, as far as personal goals and recognition.

You're a generous and loyal friend. You are basically honest and you have a sincere desire to do right by your fellow man. It's easy for you to be indulgent with others and you're a naturally big-hearted person. Use this trait with open eyes.

### **Chapter 3: The Moon**

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

#### *Moon in Leo:*

You need recognition and praise. You are warm hearted and playful with a flair for the dramatic. You exude an air of self-confidence that makes other people want to give you the recognition you desire.

It is often natural for you to assume dominance in social situations and being the center of attention isn't something you shy away from. You take naturally to being in charge and you are comfortable with the responsibility that comes with authoritative positions.

You have a good deal of pride, which in spite of your "I can handle anything" aura, can surprisingly be easily wounded.

When you feel emotionally down, socializing or any form of recreation will pick you up again.

#### *Moon in 1st house:*

You are somewhat moody and you must make a conscious effort to maintain a positive, consistent outlook on life. You fluctuate between feeling good about yourself and down on yourself. You keep those around you on their toes because your moods are difficult for other people to pin down consistently.

You can be quite impulsive and depending on your frame of mind on a particular day, you can be feisty and/or sensitive.

Your instincts are usually right on target and you get "gut feelings" about other people's motives.

Something about your upbringing could have strongly influenced your attitudes about yourself and your self image.

#### *Jupiter Conjunct or in hard aspect to Moon:*

When you become emotionally involved in a situation, you tend to blow things out of proportion. Once an emotion takes hold, it's hard for you to show restraint and then you wonder why others find it difficult to get as worked up as you are, or take you as seriously as you'd like.

When you're upset you can get careless and you cope by indulging your whims of the moment.

#### *Neptune Conjunct or in hard aspect to Moon:*

Depending on the particular mood of the day, you can be super-sensitive to every little thing, and you'll often want to retreat into your own secluded spot. Sometimes allowing yourself to "space-out" seems like the only way to preserve your emotional balance. Meditative states of mind where you allow your thoughts to flow without judgment can bring highly revealing insights into the nature of reality. A natural psychic ability is common.

### **Chapter 4: Mercury**

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

#### *Mercury in Scorpio:*

You are insightful, intuitive and your communications are intensely expressive. Scorpio doesn't want to budge and you often approach life with a single-minded enthusiasm that others often find somewhat exasperating. You simply like to win, that's all.

Your mind has a probing and penetrating quality that allows you to detect things that are not readily apparent to other people. You know how to keep secrets as well as dig them out of others when necessary. This makes you a natural psychologist, as you have an instinctive understanding of that which lies below the surface of other people's appearances.

You prefer to learn through direct experience rather than books and lectures. You have good concentration and the ability to totally immerse yourself in whatever you undertake.

#### *Mercury in 4th house:*

An atmosphere of learning may have been part of your childhood upbringing. This placement can stimulate issues concerning communication with one or both parents. Your mental focus is often geared towards the home and security related issues. The home base might lack stability until later in life.

#### *Mercury is Retrograde*

Lots of conversations are carried on inside your own head. With Mercury retrograde, you rarely blurt things out without thinking them over first. As a result, you may often find it easier to express yourself in

writing. If so inclined, you'd make an excellent writer.

## Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

### *Venus in Virgo:*

You are dependable, and you enjoy helping others in some capacity. You usually relate well to your co-workers. You are kind and sympathetic, but you know how to keep your own feelings out of the picture even when someone is crying on your shoulder.

Depending on other factors in the chart this placement can manifest as a somewhat inhibited expression of feelings and desires, or, it can turn to the opposite extreme.

You can be critical of those you truly care about whether friend or lover. This is because you want only the best for loved ones. If they understand your motive, then all is well. But, you will have to use your Virgo power of discrimination in applying this principle because not everyone will appreciate your good intentions.

### *Venus in 2nd house:*

Financial security and enjoyment of the good things in life are important to you. You can be a lavish spender because money matters tend to work themselves out in your favor in the end.

The ability to relate harmoniously with other people will enhance your money supply.

Venus here helps to grant more stability in close relationships and affectionate attachments.

You may have some inherited artistic/musical ability.

### *Pluto Conjunct or in hard aspect to Venus:*

Emotional and sexual experiences are intense to say the least. This aspect can attract karmic involvement in which you and/or the other person feel a kind of "bondage" to each other that can be difficult to break out of even when you know the relationship is over. Beware of subtle control and manipulation issues in relationships.

With this aspect in your chart, there is little middle of the road where love and money are concerned.

## Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

#### *Mars in Capricorn:*

You are hard working and a good organizer. You are more than willing to put forth whatever effort is required to attain your desires. When you are motivated, you can display excellent self-control and self discipline. Many other people would have a hard time keeping up with your ability to work unceasingly toward an end. The planet of drive and energy filtered through the sign of status and success might create somewhat of a workaholic tendency when carried to extremes. Give yourself time to relax and enjoy the fruits of your labors. You've certainly earned it. This placement also enhances physical coordination. Mars in Capricorn supports the politician / military person.

#### *Mars in 6th house:*

Are you a bit of a workaholic? Perhaps. You feel that your survival depends on the level of work that you're able to accomplish. Mars here could also be saying that the work you do requires a higher than usual energy level.

Co-workers can be highly competitive and you may have to draw heavily on your own survival instincts in the workplace.

You are willing to invest a lot of time and energy on everyday type duties because you don't like leaving loose ends lying around. Just do it! That's your motto. You can accomplish a great deal if you resist getting too tangled up in ideas of perfection.

#### *Jupiter in soft aspect to Mars:*

Your energy output can be expansive which is a definite plus when it involves getting things accomplished. On the other hand, you might have a difficult time controlling impulsive behavior. A tremendous amount of drive and energy can be at your command with this aspect. The key is learning to use this energy in constructive ways. Finding a sport to participate in or any other physical activity that you enjoy can provide an excellent outlet.

Your roaming instincts can be satisfied through travel and occasionally getting away from it all.

#### *Saturn Conjunct or in hard aspect to Mars:*

You can be fairly hard on yourself and you may find that you must work harder and with more dedication in order to accomplish your many of your goals.

Impulses are controlled, which can be a blessing in a way because you will consider the consequences before acting. However, take care not to lose all sense of natural spontaneity and enthusiasm.

## **Chapter 7: Jupiter**

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

### *Jupiter in Virgo:*

You put a lot of emphasis on perfection and maintaining high standards in whatever you undertake. Benefits come your way through helping others and saying no to environmental toxins.

You have a strong sense of duty and you receive a great deal of personal satisfaction from feeling useful.

You are highly meticulous and if anyone could find a needle in a haystack, it's you. Even if your desk is messy, you know exactly where to find everything. An exaggerated concern for minor details can find an outlet in highly technical jobs, scientific analysis, or any other work where preciseness is a plus. You are fact oriented and you have a special talent for discriminating between what is useful from what is not.

### *Jupiter in 2nd house:*

You are fortunate when it comes to your money-making abilities. However, you can also be generous with yourself and others, and money will often leave as quickly as it comes in. Nevertheless, there is usually more where that came from. Your personal income should increase steadily as time goes on.

## **Chapter 8: Saturn**

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

### *Saturn in Aries:*

You have a powerful sense of self sufficiency. Learn to appreciate the needs of other people without unduly sacrificing your own needs and desires. You may have experienced more than your share of delays and setbacks. However, these same experiences have taught you the value of persistence and ingenuity.

You can be a fierce opponent in a debate. Your focus on a desired end is second to none. Reminder: tact and diplomacy can also win the day.

Take care of your head. Wear protective headgear whenever appropriate and avoid substances that

constrict the flow of blood to your head as this Saturn placement can make one vulnerable to headaches.

#### *Saturn in 9th house:*

You're very earnest about your personal belief systems. At some point though, you will likely make a serious re-evaluation of some of these beliefs. You want to see God as a merciful being but you may have some deep down fears around this issue based on outworn and rigid orthodox viewpoints.

If you did miss the opportunity for formal higher education, you may be self educated. As a student you are serious and dedicated. Anything that stimulates the broadening of your horizons should be encouraged.

#### *Saturn is Retrograde*

No one can give you a hard time like you can give yourself. You rarely feel satisfied with your own efforts. Constantly nagging inner voices of self criticism and unrealistic ideas of perfection can censor spontaneous creativity and squelch action before you even get started. You'll have to practice self trust. "Let go and let God" is a good mantra for you to mentally recite until your subconscious gets the message. Here's another: I will do my best and forget the rest. I will do my best and forget the rest. I will do my best and....

## **Chapter 9: Uranus**

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

#### *Uranus in Virgo:*

Uranus was in the sign of Virgo for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be analytical and reality oriented. Many will take an unusual approach to scientific advances, health related issues, and the work environment.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

#### *Uranus in 2nd house:*

You can be a genius when it comes to making money. You may have to be, as this placement of Uranus brings sudden and unexpected changes in your money supply.

During the steady periods you would do especially well to squirrel something away for emergencies. You can earn money by doing something that breaks with traditional methods.

### *Neptune in soft aspect to Uranus:*

Idealistic and quite the visionary, you have much to offer in the way of hope and grand possibilities for your generation. You may have extraordinary abilities relating to mystical subjects. Here is where imagination and intuition combine, and the visualization of a utopian society based on a desire to further the lot of humankind can spur you on to tremendous achievements. You have incarnated along with a group of individuals who will join together with others of like mind to focus your unique talents on many global issues and pressing concerns.

### *Pluto Conjunct or in hard aspect to Uranus:*

When it comes to expressing your uniqueness there is very little middle of the road as far as you're concerned. You're definitely a fighter for freedom and depending on personal choices you can be quite the revolutionary. You'll witness many drastic changes in the society you live in and the world you leave will be very different from the one you came into. This generational aspect endows many under its influence with a powerful sense of mission where issues of freedom and individual rights are concerned.

## **Chapter 10: Neptune**

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

### *Neptune in Scorpio:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: a breakdown in sexual boundaries, positive spiritual transformation or extreme confusion along those lines, and a high level of deeply perceptive insights about yourself or others.

Your house position will show where Neptune affects your life on an individual basis.

### *Neptune in 4th house:*

Something about your upbringing lacked solidity and you could have an idealistic view of one or both parents. If your childhood home life was less than ideal, you have the ability to imagine it as you would have preferred it be. As a result, your own home reflects your imaginative ideal. Often with this placement the home environment is more creatively inspired than one that is traditionally picture perfect.

### *Pluto in soft aspect to Neptune:*

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

## **Chapter 11: Pluto**

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

### *Pluto in Virgo:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Virgo you're part of the generation that can experience radical changes in scientific discovery, the medical profession, diet and nutrition and the work ethic.

On a personal level, those with Pluto in Virgo tend to be aware of health related issues and are analytically minded, perfectionist and discerning.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

### *Pluto in 2nd house:*

Somewhere along the line your financial picture can undergo a complete change. This is the classic "rags to riches" placement. If financial problems seem chronic, you must make sure that all dealings with money are completely open and aboveboard.

This is a lifetime in which your value system will undergo a complete change on some level. An obsession with material aims can become a stumbling block. Gratitude and appreciation for whatever you have is the key to evolution.

## Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

### *North Node in Aries:*

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Your North node is in Aries. Develop a healthy self interest. It actually works to your advantage allowing yourself to act in a spontaneous manner. Spruce up your self image and project your personality for all it's worth. Be a leader and a pioneer. Don't waste a lot of time second guessing yourself. Learn to trust intuitive impulses.

### *North Node in 10th house:*

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: pay attention to your career aims. Keep your standards high and your reputation intact. You may find yourself getting some kind of public recognition.

You can develop the ability to be an expert in your chosen field and certain universal energies are encouraging you along these lines.

Issues around authority figures may arise, either in the form of you being in charge, or else of you having to cooperate with established leadership figures. You'll learn the value of functioning within conventional boundaries that have passed the test of time.

### *Four or more Earth Signs*

Stable and grounded, you will learn all about how to bring what you dream about into practical reality. Manifestation is the key here. Develop a habit of finishing whatever you start. Enjoy and appreciate the bounty that the earth offers.

You like feeling useful and you can develop a real talent for solid accomplishment in life. People admire your willingness to take responsibility for getting things done.

### *Four or more Water Signs*

Emotional and feeling, you will learn all about sharing compassion and understanding. You are here to empathize with and nurture others. You often act on intuition which is based purely on gut feelings rather than logic.

You can fall for a hard luck story with the best of them. Beware of giving in to those who know how to push emotional buttons in order to sway your actions and opinions.

### **Chapter 13: House Rulerships**

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

#### *Ruler of 1st house in 1st:*

You want to create a distinct first impression on other people and the image you project is very important to you. There may be a strong resemblance to one of your grandparents.

#### *Ruler of 2nd house in 4th:*

You don't mind spending money on your family or your home, because you value these things deeply. For you, the money that you earn is equal to a strong sense of security and emotional peace.

Money may be earned by working out of your home, or by being involved in any form of domestic or home related activity. Real estate sales and property investments would be considerations also.

#### *Ruler of 3rd house in 4th:*

You think and talk about your home and family life. You think a lot about your upbringing and you may have a good deal of communication with your mother or your parents in general.

A near relative may live with you at some point in life. If you have brothers or sisters, one of them may have played a parental role. Any brothers and sisters may become closer to you later in life.

#### *Ruler of 4th house in 2nd:*

Real estate and property matters may enhance your income. Your mother or your upbringing in general influenced your value system. Your family may affect your money supply or you may find that money and possessions provide a kind of emotional security for you.

#### *Ruler of 5th house in 2nd:*

Financial speculation can increase your income as well as make the most of your innate creative abilities. If you are a highly creative person then most likely these are inherited talents.

You may have very strong attachments to your children and your children enhance your feelings of self

worth.

Recreational activities and creative projects are part of your value system.

*Ruler of 6th house in 2nd:*

The health related fields may increase your income. You worry too much about money and possessions, although you may have good powers of discrimination when it comes to handling money. You're willing to work diligently for your money.

*Ruler of 7th house in 9th:*

Your spouse may be from a foreign country or he/she may simply come from a culture that is very different from your own background. You might prefer a living together arrangement with a partner rather than making a legal commitment.

However, it may be that your attitude towards marriage was heavily influenced by your religious beliefs or your religious upbringing. Additionally, a partner or even very close friends might be able to influence your philosophical ideas about spiritual matters.

*Ruler of 8th house in 2nd:*

Other people's money or resources can strengthen your own financial picture. Other people's values can influence your own value system. The field of metaphysics could be a source of income for you.

Deep intimate bonding with another person is something you feel strongly about. You tend to bond with others emotionally as well as sexually and it's difficult for you to separate these feelings.

*Ruler of 9th house in 4th:*

Your spiritual beliefs support your feelings of emotional security. Someone during your upbringing influenced you with their own religious or philosophical beliefs.

Someone from overseas or from a long distance away may come to live with you later in life. Your in-laws might even live with you at some point.

*Ruler of 10th house in 6th:*

You would prefer to be your own boss with regards to the work that you do. Your career may involve helping others or being useful to other people.

You can be like an authority figure to co-workers, or you feel a strong sense of responsibility towards them. The same applies to your own employees, if you have them.

Your career can be connected to any health related field and the work you do can turn into your primary profession.

*Ruler of 11th house in 2nd:*

Friends, acquaintances, and even large groups of people, especially those within a particular organization, contribute either to your feelings of self worth, or perhaps your actual income.

Circumstances beyond your control can have a strong bearing on your financial picture.  
Your interest in New Age practices can become a source of income for you.

*Ruler of 12th house in 4th:*

You can more easily get in touch with your subconscious mind while in the privacy of your own home.

You have a past life connection with your mother or your family in general. You may experience a time of confusion and doubt about your family or upbringing. If this is the case, you must work on forgiveness in order to elevate yourself.

Making other's opinions of you more important than your own can work against you. You can't please all of the people all of the time. Accept yourself fully for what you are.
