

GOCHARA- RESULTS OF TRANSITS FROM THE MOON

Classical texts give great importance to the transits of planets from the Janma Rasi, or natal Moon sign. The position of transiting planets in relationship to the natal Moon is an effective method for determining the good and ill effects of any given time. A planet that is giving good effects in transit from the Moon can be obstructed by another planet in some other particular house; in this event, the affairs and effects of the obstructing planet take precedence over those of the benefit giving planets, which are then not furthered. Similarly, a planet that is giving ill effects can be obstructed by another planet; in this event the affairs and effects of the obstructing planets somehow prevents, or somehow helps the native overcome the difficulties indicated by the ill giving planet.

The different planets give the predominance of their effects in different parts of the rasi that they are transiting. The Sun and Mars particularly give their effects in the first third of the rasi; the Moon and Saturn particularly in the last third; Jupiter and Venus in the middle third; Mercury and Rahu give their effects evenly throughout the rasi. Following are the effects as given in the classical texts of the transits from the Moon:

Sun in 12th from Moon

The activities of only those of an ideal character will be successful and not of others. Unable to reap the fruits of any good actions.

Moon in 4th from Moon

One loses trust in others, as in a mountain infested with snakes.

Mars in 3rd from Moon

Confers benefits through thieves and urchins, energy, authority, wealth, woolen articles, mineral wealth and the like. Gain of valuable metals, favor of Subrahmanya and the easy destruction of enemies.

Since there is a planet in the 12th from the Moon the good effects of Mars in the 3rd from the Moon are obstructed by the influence of the planet in the 12th from the Moon.

Mercury in 1st from Moon

Will be deprived of wealth by wicked persons (using foul language), tale-bearers, enemies, duplicity, Imprisonment and quarrels, and one will not hear even a kind word of welcome in their travels. Quarrels and misunderstanding with relations. Loss of money caused by unlawful words, writings and journeys to distant places.

Jupiter in 11th from Moon

Bestows position, health and wealth. Favors, success in all actions, and elevation to a distinguished station in life.

Venus in 2nd from Moon

Bestows children, wealth, corn, royal favor, family prosperity, flowers and gems for ornaments. Consequently, the native though grown old with gray hair enjoys sexual pleasures. Happiness for the family members.

Saturn in 1st from Moon

The native will be troubled by poison and fire, separated from their kith and kin, will kill one of their relatives, wander in foreign countries, will have neither friends, nor a house to live in, will be hateful in appearance, poor, without children, pale in the face and a wanderer.

When planets are in unfavorable positions the native is humiliated and any work done by them for achieving prosperity, better health and the like will itself destroy them, just as the ceremony of raising a goblin, done improperly, destroys the doer himself.

A person, though low-born and of reprehensible conduct, becomes respectable in the world, when the planets are well-placed in transit, and a king, though possessing a small army or very little

prowess, starting on an expedition at the proper time, in view of the favorable positions of the planets achieves the supreme position that is the fruit of actions eulogized in the scriptures.

EFFECTS OF TRANSITS FROM YAVANA JATAKA

SATURN TRANSITS

Saturn in the 4th from Saturn- destroys good qualities and friendship.

Saturn in the 10th from Jupiter- destroys beauty.

Saturn in the 3rd from Mars- the destruction of quarreling and strength.
